IIT Dharwad Student Portal

Connecting Campus Life

Executive Summary

In response to the dynamic needs of the IIT Dharwad student community, the IIT Dharwad Student Portal emerges as a comprehensive digital solution. Our focus on simplicity, accessibility, and community engagement aims to enhance campus life for every student. This report highlights key features, rationale, and the envisioned impact of the portal.

Project Overview

The IIT Dharwad Student Portal is an integrated digital platform designed to foster connectivity, organization, and information exchange among students. With a mission to streamline campus life, the portal focuses on four core features:

- ❑ Events Calender
- ❑ Quick Links
- ❑ Lost and Found Section
- ❑ Discussion Forum

Events Calender

An interactive calendar displaying upcoming events, lectures, workshops, and social gatherings, creating a centralized hub for campus happenings.

Quick Links

Direct access to essential campus resources, including the library, student services, academic departments, and administrative offices, for quick and easy navigation.

Lost and Found Section

A dedicated section for reporting and locating lost items, ensuring a swift and efficient process for reuniting students with their belongings.

Discussion Forums

An interactive forum for students to engage in conversations, seek advice, and share information on various academic and extracurricular topics.

Vision and Impact

The IIT Dharwad Student Portal envisions becoming the digital heartbeat of campus life, promoting connectivity, collaboration, and a sense of belonging among students. By simplifying daily tasks and enhancing communication, the portal seeks to create an environment where students can thrive socially.

Implementation Plan

Phase 1: Frontend Development

HTML/CSS Implementation:

Develop the frontend using HTML and CSS, ensuring responsiveness across various devices.

JavaScript Integration:

Incorporate JavaScript for interactivity, including real-time updates, dynamic content, and smooth user interactions.

Implementation Plan

Phase 2: Backend Development

Database Setup:

Implement the MySQL database to store information such as Lost and Found records, class schedules, and forum discussions.

PHP Backend:

Develop PHP scripts to handle data processing, server-side logic, and communication with the database.

User Experience

Login and Home Page Structure:

Upon accessing the portal, users are greeted with a secure login page. Upon successful login, they are directed to a home page featuring:

Navigation Bar:

Clearly labeled links to the four main sections - Quick Links, Lost and Found, Events Calendar, and Discussions Forum.

User Experience

Quick Links Section:

A dedicated section presenting various links with descriptions to essential campus resources.

Lost and Found Section:

Subdivided into "Lost" and "Found" sections, providing details about items reported as lost or found on campus.

User Experience

Events Calendar Section:

An interactive calendar showcasing upcoming college events, lectures, workshops, and social gatherings.

Discussions Forum Section:

A collaborative space for students to engage in conversations, seek advice, and share information on various academic and extracurricular topics.

Conclusion

The IIT Dharwad Student Portal is not just a digital platform; it is a commitment to transforming campus life. Through its diverse features and user-centric design, the portal aims to create a vibrant and connected community. Join us on this journey as we reimagine the digital landscape of IIT Dharwad.
